

MISSION:

To make our customers successful.

VISION:

Through our technology solutions, we enable federal government to deliver maximum value to its citizens by using cutting edge technologies & tools with minimized cost.

Core Audiences We Support

HOMELAND & NATIONAL SECURITY:

CMCI delivers round the clock mission support, advanced analytics and leading-edge technology solutions in rapidly-evolving, high-transaction-volume threat environments to protect our nation.

TRADE AND TRAVEL FACILITATION:

CMCI provides near real-time decision-making support to facilitate trade across borders, mitigate threat and risks to allow expedited admissibility to cargo and travelers.

HEALTH AND HUMAN SERVICES:

CMCI provides administrative and technology services to protect and promote health and human safety by capturing and analyzing data associated with food and drugs coming into the country.

ADMINISTRATION:

CMCI is actively involved in providing cutting-edge IT services such as cloud computing and agile methodology at administrative federal agencies to meet it's mission-critical business needs.

EDUCATION:

CMCI is providing IT solutions to one of the largest unified school districts in the country to facilitate scheduling, transportation and other school administrative responsibilities.
